

rheeboShare

a fundraising marketplace for
not-for-profits powered by Rheebo

Overview

rheeboShare, a feature of Rheebo, is an online local marketplace that provides not-for-profits with a sustainable and non-intrusive way to fundraise while creating exposure for local businesses.

Program

Through a partnership with Acktify, a direct to consumer seller in the global marketplace, and local **business partners**, Rheebo sells items in the **rheeboShare** marketplace with a percentage of each sale going to a not-for-profit of the shopper's choice.

PROGRAM

BUSINESS
OVERVIEW

The marketplace not only provides an easy, sustainable way for our local not-for-profits to fundraise but it also enables our business partners to leverage the power of our not-for-profit partners to draw 1000s of motivated shoppers to the marketplace.

Program for Businesses

Getting started with rheeboShare is easy

1. If you are not of the Rheebo network, [join us](#).
2. Identify an item that you would like to put in the marketplace. It can be anything. Just one item. Just having a presence in the marketplace will provide exposure. If you do not have “items” you can be creative. Sell a gift card from someone in your network!
3. Email the item name, description, price, and inventory qty to share@rheebo.com.
4. Tell your customers that you are part of the rheeboShare program via email, facebook etc. We also have a badge that you can put on your website.
5. We **do not ship** items. Items are picked up at your store (We want to create store traffic). If you do not have a storefront we can provide a pick-up location.
6. At the end of each month, a check is mailed along with a report of orders.
